## They Say

The indictment is reported.  
Now comes the tug of war.  
All that glitters is not gold.  
The feast of Pompeii was enjoyed by Caesar.  
Never miss a good thing when you can get it.  
Belle Russell of R street, will be attended to.  
She will be taught a lesson.  
Her over-anxiety to serve the poor will get her in trouble.  
She will be given an opportunity.  
The Republicans have a load to carry.  
Their recent victory makes a division in the party lines.  
Be what you seem to be and nothing more.  
Don't be alarmed when you hear the roar of cannons and shooting of guns.  
It is only three days talk.  
It has been a hard winter.  
Some men will not tell the truth.  
The Librarian mission will be vacant for some time.  
President Cleveland is not in a hurry to fill it.  
Don't fail to read the BEE.  
Watch the grinning man.  
He never can be honest.  
All is well that ends well.  
Strange that Uncle Bob Brown has not had his colt to a sleigh.  
Howard University is progressing.  
If one of the editors of the American had been appointed, would an attack been made on the hospital?  
The good people of this city have been looking after the poor.  
"Delays are dangerous; traitors retreat when boldly they are confronted."  
There is no justice for the negro.  
He must subject himself to the will of the whites.  
The court will now decide the libel suit.  
Did you ever see an honest man?  
What does he look like?  
Diogenes had a lamp in the day time looking for an honest man.  
Is there any protection for females when men hold over them the official lash?  
It would be better to remove the incumbent.  
The school children need more schools.  
It is hoped that the Senate will make an amendment to the reform school bill for girls.  
Some men look wise, but they turn out to be fools.  
The Richmond House is the most popular resort in the Southeast.  
Senator Bruce will make a great cabinet official.  
Why not make a demand on the next Republican administration.  
**DR. PARKHURST ON CLUBS.**  
Dr. Parkhurst will pay his respects to clubs and club-life in his article in the next issue of The Ladies' Home Journal. "Consider the club," writes the great reformer, "to be one of the cleverest devices of the devil to prevent homes being made, and to sterilize and undermine them when they are made."

## FASHIONS FOR LADIES.

The fashion for little girls does not vary from their elders. The same broadening effects, large skirts, collars, sleeves, etc.  
For evening wear, the coiffure can be worn either very high or very low, with curls down the back. The front worn in bandeaux, either waved and covering the ears, or showing the temples.  
The Gismonda hat will be the most popular for spring. It is composed of a small shape almost invisible under the trimming. The crown is either of jet, or spangled satin or tulle or straw.  
Velvet seems still the favorite material for dressy costumes, as well as for stock collar, jacket fronts, sleeves, yokes, vests, entire waists, hats, capes, long coats, opera cloaks—in fact, for everything.  
Black cloth of every description, and rough chevrons, diagonals and camel's hair are still seen as the material for street wear.  
For spring wear it is predicted that that well-wearing fabric known as whip cord, has every prospect of returning to high favor, and it will be obtainable in black, navy, mistral (new blue), tan, brown, etc.  
Most costumes, dressy and others, show a combination of two materials if not two colors, and sometimes both. The only costume that makes exception is the regular tailor-made gown, and often this departs from its proper sphere and grows more dressy with silk or velvet trimming.  
A tailor-made gown is much prettier in the previous simplicity, as it gives that natty appearance so much required by a street costume.  
Among the fashionable combinations for spring checked and fancy taffetas will appear on plain and mixed woollen goods, after the style so prominent in Paris late last summer. Simple gowns of brown serge will also be seen a great deal in the early spring.  
A few handsome and richly colored plaids are shown. Also lustrous goods will be in fashion. Broadcloths for street wear; also, shepherd goods Scotch chevrons, etc.  
Mosaic suiting, a new and rather pretty effect, so-called on account of its peculiar resemblance to mosaic designs, will make its debut. It is fifty inches wide, and will be about \$1 a yard.  
In cotton goods, new fabrics and designs are made. Handsome transparent fast colors are among them. Some tailor-made costumes have short capes of the same material for spring wear.  
Modified jackets on the Eton order, are predicted for spring and summer costumes with pointed fronts and sailor collar.  
The round waist, full in effect, and often contrasting with the sleeves and skirt, will be the popular styles.  
The width of dress skirts is 6 to 8 yards, but it can hardly stand in popular favor very long. The wide woman has made moderately wide, about five yards.  
Godet skirts absolutely require a stiff interlining for the back, and softer lining for the front and sides.  
As to colors for the coming season, bright blues, magenta, pinks, yellowish greens and golden browns will be in favor, as will also fuchsia shades, while blue and cerise will hold their own.  
The newest ideas in waists is the looseness in front, or box plait effect.  
Of the fashion magazines published in America, none give such value for the money as Toiletries, the March edition of which is now to hand. This number consists of 32 pages of elegant half-tone engravings, which furnish 190 illustrations of the new spring styles that the month will see in use. The designs are not only original, having been specially prepared for this magazine by the best artists, but they are the most approved and the best from the work-rooms of Worth, Felix, Pingat, Mayer, Vilet, Hounet and other distinguished French modistes, who determine the fashions of the world. Among its illustrations are spring toilettes in great variety, children's costumes (represented by 40 models), corsets; ball reception, at-home, and evening dresses; mourning toilettes, bridal costumes, tea gowns, etc. A striking feature of this number are the elegant sleeves, which betoken immense improvement in this department of dressmaking. As a magazine of fashion for home use, there is none the equal of Toiletries.

## CONAN DOYLE ON AMERICA

Conan Doyle's impressions of the literary phases of American life are to be continued in an article to appear in the next issue of The Ladies' Home Journal. The novel was originally intended to be the novelist's impressions of American women, but this plan was altered and the article to be printed in the Journal will give Dr. Doyle's ideas of "Literary Aspects of America."

## WEDDED IN SPITE OF THEM.

A Runaway Marriage to Which the Parents Offered Fruitless Opposition.  
Pocomoke City, Md., Jan. 2.—The Parker Hotel was the scene of a romantic marriage yesterday. The contracting parties were Douglas L. Sommers and Miss Florence Lewis, of Bloxom, Va. They came here to escape the wrathful ire of their objecting parents. The Rev. E. S. Tuttle was sent for, and performed the ceremony in the parlor of the Parker Hotel. Mrs. Lewis, mother of the bride, arrived early yesterday morning in pursuit of her daughter, who she says is under age. She caused a great deal of excitement over the girl's marriage, but Mr. and Mrs. Sommers left on a train for their home in Virginia in the afternoon.

## FIFTY LIVES LOST.

Fearful Storms Along the British and French Coasts.  
London, Jan. 2.—Fearful storms are reported from all parts of the British and French coasts. It is estimated that at least fifty lives have been lost. The Ramsgate (Kent) lifeboat crew put to sea at midnight and returned at noon with the crew of the schooner Union, wrecked on the Goodwin Sands. It is regarded as certain that the collier Napoli and the fishing steamer Nordsee both foundered off the Dutch coast on Saturday. There were twenty-five persons on both vessels, and there is hardly a doubt that all of them were drowned. A number of fishing boats which left Cherbourg on Saturday have also been lost, and probably their crews.

## The Girl Was Saved.

New Brunswick, Jan. 2.—While skating on the Raritan River yesterday afternoon, opposite this city, Mamie Farrington, aged fifteen, a daughter of Patrick Farrington, of No. 120 Burnett street, and Charles Crossin, aged nineteen, of No. 11 Hassart street, narrowly escaped drowning. The young couple skated into an air hole. Young Crossin got out quickly, but before he could turn to assist his companion, James Payton, of No. 267 Redmond street, plunged into the icy water, and, assisted by Richard Harbergher, Jr., rescued Miss Farrington. She was taken to Klei's restaurant in Albany street, and soon recovered from the shock attending her plunge into the cold stream.

## Another Hotel Holocaust.

Lancaster, Ky., Jan. 2.—The Miller Hotel was burned yesterday. There were four persons in the building at the time—Edward A. Pascoe and wife, his baby, about two years of age, and his mother-in-law, Mrs. Masters. The wife only escaped. No other persons were in the hotel, as Pascoe had made all arrangements to give it up. The fire is believed to have been of incendiary origin.

## A Street Car Accident.

Brooklyn, N. Y., Jan. 2.—Six persons were injured in a street car accident in Brooklyn yesterday. A car of the Franklin avenue line was run into and wrecked by a car of the Fulton street line. The injured are William Purblo, John Sakner, Charles W. Murphy, a well-known bicyclist, severe internal injuries; A. W. Franklin, Mrs. Elizabeth Saunders, of Jersey City.

## Mosher Defeats Donoghue.

Newburg, N. Y., Jan. 2.—Yesterday afternoon a large crowd witnessed the skating races on Orange Lake, which had been arranged as preliminaries to the National Amateur Skating Association races set for January 19. The principal event was the race between James A. Donoghue, of this city, and Howard Mosher, of Storm King. Mosher won easily.

## Mexico Shaken.

St. Louis, Mo., Jan. 2.—A special to the Globe-Democrat from the City of Mexico says that Sunday night an oscillatory earthquake shock was felt in that city and other parts of the valley of Mexico. The movement was east and north, but of short duration. The disturbance caused great alarm.

## Killed at a Crossing.

Guth, Mo., Jan. 2.—Miss Catherine Patten, aged eighteen, was killed and Miss Jenny Harvey and Mr. William Thompson were severely injured at the Centre street crossing of the Maine Central railroad yesterday. The party were driving home when the train from Boston struck and demolished the carriage.

## Blown Up by Dynamite.

Newton, Mass., Jan. 2.—Timothy Mallory and James Ford, while digging in a trench at Newtonville yesterday, were hurled twenty feet by the explosion of a dynamite cartridge. Mallory died soon after. Ford is severely hurt.

## Killed His Wife and Child.

Bay City, Mich., Jan. 2.—Daniel G. Tromley, a lumber inspector, twenty-eight years of age, crazed over politics, murdered his wife by cutting her throat, smothered his child and set fire to the house. Tromley was arrested. He attempted suicide by jumping into a well.

## A FEARFUL WRECK.

A British Bark Goes Ashore and Her Crew is Drowned.  
London, Dec. 31.—The British bark Osseo was wrecked in a gale at Holyhead yesterday morning, and with her perished her entire crew of twenty-six men. The Osseo was driven ashore back of the Holyhead breakwater. Her signals of distress were first heard by the coast guard about 4 o'clock in the morning. At that time it was pitch dark, and great waves were washing over the breakwater. In spite of the danger of being washed into the sea, the guard proceeded along the breakwater, and having rigged up the rocket apparatus, began firing life lines in the direction of the wreck. The faint light of the rockets across the sea, the fact that the vessel had broken in two amidships, and that the main mast had fallen, crushing the lives out of several of the crew. A few survivors could be seen clinging to each half of the vessel, and their piteous cries for help could be heard above the roar of the storm. After many failures the coast guard succeeded in firing a line over the wreck, but by that time all on board had perished. A lifeboat vainly tried again and again to approach the wreck. Not a vestige of the bark could be seen to-day, and there is no prospect of any salvage. The Osseo was a bark of 1,899 tons. She arrived at Plymouth on December 15 from Talalt, and had been ordered to Anderson. Reports of stormy weather continue to be received from all parts of Europe. Numerous small wrecks and casualties are reported in Great Britain and Ireland. Many lives were saved by lifeboats. A severe gale is blowing on the Baltic, and navigation is suspended at Copenhagen.

## PARKHURST DISSATISFIED.

An Understanding Between Lexow and Supt. Byrnes.  
New York, Dec. 31.—In an interview with a Tribune reporter, Dr. Parkhurst was asked: "Have you an idea from reading the testimony of Supt. Byrnes that there was a previous understanding between the Superintendent and the Lexow Committee?" He replied: "There is not the slightest doubt about it. In fact, I am free to say that I knew some time ago that there was an understanding between the committee and Mr. Byrnes. I am not prepared to say that Mr. Goff had any knowledge of it, but the understanding involved the manner in which Mr. Byrnes was to be treated. Just what the understanding was I decline to state, but I knew that Byrnes was not to be badly damaged. I first made up my mind that there was an understanding when I heard that Byrnes was supplying the committee with information. My sentiments in regard to Mr. Byrnes are the same now as they always have been. I have been fighting Mr. Byrnes three years, and he has been fighting us, and I am firmly of the conviction that if I care for the safety of our organization I cannot afford to become allied with the enemy in any way, shape or manner. I look upon Supt. Byrnes as a consistent part of a system that is corrupt, and for that reason I do not believe it is wise to have any dealings with him."

## A Chinaman Suiicide.

Watertown, N. Y., Dec. 31.—Lee Ling, a Chinese, aged eighteen, who had been a prisoner in the country jail since November 19 on a charge of assault, committed suicide in his cell yesterday afternoon by hanging. On November 19 Ling entered a laundry, of which his cousin, Charles Jim, is proprietor, and demanded \$200, saying he wanted to go back to China. Jim refused to give him the money, and Ling, armed with a long knife, thereupon rushed upon him, striking, his arm and inflicting other slight wounds. Ling had been in this country only two years.

## A Hermit Frozen to Death.

Wichita, Kan., Dec. 31.—Emile Lannes, a hermit for a dozen years in a canyon in Beaver County, No. Man's Land, was found frozen to death in his rude hut. A crucifix was grasped tightly in one hand and a rosary in the other. He was ninety years of age and was said to be a son of one of Napoleon's marshals. The hut he lived in contained nothing but a rough table, a few cooking utensils and about fifty volumes of French religious books.

## A Fire at Sing Sing.

Sing Sing, N. Y., Dec. 31.—Fire was discovered in the storehouse and laundry of Sing Sing prison yesterday morning. Although the firemen responded promptly the flames had gained considerable headway. The burned buildings are located in the northeast portion of the prison yard. The loss is estimated at \$2,500, and is not insured. The cause of the fire is a mystery.

## Stamped Envelopes Cheaper.

Washington, Dec. 31.—Third Assistant Postmaster-General Craig has issued a circular informing postmasters of a reduction in the price of stamped envelopes and newspapers after January 1, 1895. The general public will not derive much benefit from the change, but buyers in large quantities will secure them a little cheaper.

**WILSON'S COMPOUND OF PURE COD LIVER OIL AND PHOSPHATES OF LIME, SODA, IRON.**  
The truly wonderful effect produced by Dr. Alet and J. Wilson's Compound of Pure Cod Liver Oil and Phosphates renders it beyond doubt the most perfect preparation of its kind known to-day. Consumption, coughs, colds, asthma, debility, weak lungs, etc., are almost as palatable as cream. It can be taken with pleasure by delicate persons and children, who, after using it, become very fond of it. It assimilates with the food, increases the flesh and builds up the nervous system, restores energy to mind and body, creates new, rich and pure blood, rejuvenates the whole system, freshens the complexion, and gives a healthy glow to the face. This preparation is far superior to all other preparations of cod liver oil. It has many imitations, but no equal. The results following its use are its best recommendations. Be sure, as you value your health, and get the genuine. Manufactured only by Dr. ALEXANDER D. WILSON, Chemist, Boston, Mass.

## WITH THE LAWMAKERS

### THE SESSIONS OF THE SENATE AND ASSEMBLY.

#### THE WORK ACCOMPLISHED.

The Measures Considered by the Law Makers—Those That Are Important—Other Matters of General Interest—The Bills Introduced and Passed.

Albany, Feb. 7.

In the Senate this morning, among bills received from the Assembly, were those of Mr. Abbott, allowing Co. to raise \$25,000 for two new schools, and for the construction of a bridge over the canal at Cohoes. They were referred. The Greenbush police bill of Mr. J. P. Cole was also sent over. It was referred to the Cities Committee.

The Troy police bill was taken up in committee of the whole. Senator Mullin (Rep.) said the force of Troy was worse than New York's and was more corrupt than any other force in the country. He urged the bill's advancement.

Senator Cantor (Dem.) said this bill was a "literary peach." It was worse, more unjust, than the Buffalo bill. Lansingburgh has one kind of a force and commision, Greenbush was to have another and Troy another kind. It was an insult to offer such a bill to an intelligent body.

Albany, Feb. 12.

In the Senate last night there was a quorum present. Among the bills introduced were:

Senator Kilburn, appropriating \$6,000 to continue State land surveys.

Senator Donaldson, providing that if a majority of citizens vote against the sale of liquor in any town, county or city ward, it shall be unlawful for a period of five years, and until the question is again voted on, a violation of the law being made actionable and punishable by a fine of \$50 to \$1,000.

Senator Pound's bill, prohibiting the use of tobacco in State prisons, was reported favorably by the State Prisons Committee.

Senator O'Sullivan's bill allowing the Mayors of cities and Presidents of villages to issue certificates to policemen and firemen entitling them to free rides on surface and elevated roads while on duty was passed.

Gov. McKinley, of Ohio, was a visitor and made a short speech.

On motion of Senator Coggeshall the Senate proceeded to nominate a candidate for the office of Regent of the University. The roll was called and the various Senators arose and named the 14 choice. Dr. Samuel B. Ward, of Albany, received ten votes from the Democrats and Dr. Albert Vander Veer, of Albany, fifteen votes from the Republicans. Dr. Vander Veer was declared to be the nominee of the Senate for the office of Regent.

IN THE ASSEMBLY.

In the Assembly Albany, Feb. 7.

Mr. Gardiner for \$40,000 for a State armory at Hudson was favorably reported.

Among the bills passed was Mr. Horton's prohibiting prize fighting and sparring exhibitions. The bill goes into effect September 1, 1895. All the Democrats voted against the bill.

Mr. Blake, who said the brutal exhibitions of prize fighting were demoralizing to the youth of the country.

Albany, Feb. 12.

There was a large attendance of spectators. Mr. Robbins introduced this resolution: "Resolved, That this House declare its adherence to the principle of home rule for the various municipalities of the State and that municipal officers (others than inspectors of election) should be elected by the people, or appointed by the Mayors or other elected officers of each municipality." It was adopted.

Leader Ainsworth started in to kill the resolution, but gave up. Now the various "police" bills, including those for Troy and Greenbush, will have to be amended or defeated, or the resolution ignored. This is a sample of the unorganized and unsettled state of Republican policy in the House.

Leader Ainsworth has a majority both too large and too turbulent for him to control.

Another resolution which sounded of war was that of Mr. Nixon, who called upon several of the State departments to name their recently appointed employees, who they succeeded and whether the civil service rules were being observed. This is on account of the row being raised all over the State by the reports of wholesale dismissals of Democrats to make room for Republicans. The resolution was adopted.

The bill allowing the District Attorney instead of the County Judge of Albany County to appoint the stenographer of the Grand Jury was advanced to a third reading in spite of the protests of Mr. Ten Eyck, who explained the purely partisan nature of the bill.

Among the bills introduced were: Mr. F. F. Schulz, relative to the fees of county clerks.

Mr. O'Grady, exempting wood cutting machinery from the law relative to conditional sales of personal property.

Mr. Ainsworth, relative to ejectment of a servant or employee from premises of employer.

Mr. Staley, relative to highway labor in Charlottesville.

Mr. Audette, regulating hours of labor in bakeries to not more than ten daily and providing for the sanitary care of the same.

Mr. Howe, providing for fireproof elevator shafts in hotels and for fireproof doors to same.

At 12 o'clock noon the House proceeded to vote for its choice for nominee for the office of Regent of the University. Dr. Albert Vander Veer received 85 votes and Dr. Samuel B. Ward 7. The Speaker declared Dr. Vander Veer to be the nominee of the Assembly.

### ACCIDENT ON THE LONG ISLAND.

Locomotive Overturned and Engineer Pinned Underneath It. Far Rockaway, L. I., Feb. 11.—A fatal accident occurred Friday afternoon on the Long Island Railroad at New Venice, half way between Far Rockaway and Arverne. Train 75, to which the accident occurred, left here double-headed, drawn by engines 121 and 125, in charge of Engineers Mahoney and Cornell respectively. Conductor Bartow was in charge of the train. Engine 121, which was ahead, was completely overturned at New Venice, and Engineer Mahoney was pinned under the wreck. His fireman, David Lovell, was killed outright.

### STRIKERS INDICTED.

The Grand Jury Brings in Bills Against Several of Brooklyn's Motors. Brooklyn, Feb. 11.—The Grand Jury has handed in a batch of indictments against men who cut trolley wires, etc. The charge against them is malicious interference with the running of cars. The indicted men are Martin Conway, Charles Oders, John Egan, Barclay Cloonan, Lawrence Geagher, William Hamilton, Jacob Adler and Richard Driscoll. Miss May McDonald was also indicted. She is only eighteen years old and was the leader of a mob on Fifth avenue. The following were indicted for interfering with the motor power: Louis Grimm and Patrick Murray. William Lantz was indicted for obstructing tracks.

### TOWN ON FIRE.

Harrow, Ontario, Is Being Swept by Flames. Detroit, Feb. 12.—A message from Harrow, Ont., forty miles distant, says the town is burning. Ten buildings have already been destroyed and many narrow escapes are reported.

### Grip Drove Her to Death.

Buffalo, N. Y., Feb. 11.—Miss Nellie Cutter, the twenty-two-year-old daughter of Charles Cutter, of East Aurora, left her bed while demented from the grip, and strided only in her nightgown, with a shawl over her shoulders, walked to the mill stream near the village and plunged through a hole made by ice-cutters. The body has been found.

### Discredit Princess Maud's Engagement.

Rome, Feb. 11.—The Tribune has a London dispatch repeating that the Prince of Wales will meet the Prince of Naples in Florence next spring to arrange for his marriage with the Princess Maud. Government and court officials regard this as merely an echo of the Giornale story, which they discredit.

### A Wandering Society Girl.

New York, Feb. 12.—Miss Grace Fugh, aged twenty-four, of One Hundred and Thirty-sixth street and St. Nicholas avenue, a member of the inner circle of the "four hundred," was taken in charge by officers while wandering around the streets at 4 o'clock this morning, hatless and coatless. Relatives claim dementia.

### Killed While Cleaning Windows.

New York, Feb. 12.—Bridget McSweeney, a middle-aged domestic, employed at No. 125 East Fifty-seventh street, got out on the ledge of a window on the fifth floor to clean the glass and while at work lost her balance and fell headlong to the ground and was almost instantly killed.

### Four Killed in a Railroad Yard.

Harrisburg, Pa., Feb. 11.—A belated passenger train from the West Friday afternoon crashed into a gang of men engaged in clearing the tracks of snow in the yard here, killing four of them. The dead are: John K. Garr, Noah Day, John Crosby and George W. Troup.

### The Web Closing.

Minneapolis, Feb. 11.—In the Hayward trial the State is putting in a very complete case, corroborating so far as possible every minor point in Blixt's remarkable story, and the chain of circumstances being woven about Harry Hayward grows more complete with every hour.

### Argentine Excited Over a Duel.

Washington, Feb. 12.—Mail advices from Argentina give a tragic account of a duel between a son of the late President Barmiento and Dr. Lucio Lopez, a bank examiner. The excitement in the republic equals that in this country when Burr shot Hamilton.

### A Missing Non-Unionist.

Hartford, Conn., Feb. 12.—Fred C. Flint, who went from here to take a strike's place on one of the Brooklyn trolley roads, was held a prisoner by the strikers for several days, when he escaped. He has not been heard from since.

### To Sell the Cup Defender.

New York, Feb. 12.—The old sea sharp, Capt. Terry, has been engaged to sell the cup defender of 1895. It is said in many respects he is the superior of Capt. Hanson, who sailed the *Vigilant*.

### Cook Robin Knocked Out.

London, Feb. 12.—At Central Hall, Holborn, last night, C. Johnson, an American, knocked out Robinson, alias "Cook Robin," in seven rounds. The fight was for \$500 and the ten-stone six-pound championship of the world.

### \$100,000 Fire in Buffalo.

Buffalo, Feb. 12.—The four-story brick block Nos. 10 to 16 Lock street, occupied by a number of manufacturing firms, was gutted by fire this morning. Loss \$100,000.

### A Hard Hit for Tammany.

New York, Feb. 11.—Mayor Strong believes he need not appoint Tammany Democrats to the bi-partisan Police Board, but may appoint Democrats of other associations.

### Dropped Dead.

Poughkeepsie, Feb. 11.—Robert B. Bedell, a well-known resident of this city and commercial traveler, dropped dead at Binnewater, about eight miles from Kingston, Friday afternoon.

### A BRIDE'S DOWRY.

Married the Man Who Killed Her Brother for Insurance Money.

Toronto, Ont., Feb. 12.—Dallas T. Hyams, aged twenty-five, and Harry P. Hyams, aged thirty-nine, brothers in the brokerage business, were arrested last night charged with the murder of William C. Wells, a young Englishman, aged twenty-five, formerly in their employ as bookkeeper. On January 16, 1893, Wells was found with his head terribly crushed at the bottom of the elevator shaft in Hyams' warehouse in this city. Death was reported as accidental. Wells's life was insured for \$25,000, \$15,000 being carried by the Mutual Life of New York and the balance in the Toronto Mutual Accident Association. The policies were payable to Wells's sister Martha, who, at the time, was engaged to marry Hyams. The policies had been issued only two months before Wells's death. The New York Mutual Life investigated the case, but found no evidence of foul play, and the money was paid to Miss Wells. Last May she was married to Harry Hyams and they shortly afterwards removed to Montreal, returning to Toronto two weeks ago and again taking up their residence with Dallas Hyams.

### THE CITY OF ST. AUGUSTINE.

She Has a Lumber Cargo and Was Seen Making Slow Roadway to Port.

Savannah, Feb. 12.—The steamship City of St. Augustine, which has been reported overdue at New York, was sighted on February 5 off Wilmington, N. C., by the schooner *Ida Lawrence*, which arrived at this port on Thursday. She was steering northeast by north against strong northerly winds, and was making good headway. Warren Ray, the New York agent of the City of St. Augustine, is inclined to think that the steamship, which is lumber-laden, may have put into one of the North Carolina inlets. Being a wooden vessel with an unsinkable cargo, it is likely that she is afloat, although she may have broken down or run out of coal and become unmanageable.

### INCOME TAX AMENDMENT.

Time for Payments for This Year Extended.

Washington, Feb. 12.—The House joint resolution, extending for this year the time for making returns for the income tax was reported to the Senate with amendments providing that in computing the income from real estate, expenses of repairs and fire insurance are to be deducted; that in computing income from dividends there shall be deducted such sums as are received from corporations that pay 2 per cent on their net profits, and that no taxpayer shall be required to answer interrogatories except such as are specifically provided in the act.

### BILL COOK.

This Outlaw Gets Fifty Years in Albany County Penitentiary.

Fort Smith, Ark., Feb. 13.—In the United States Court yesterday Bill Cook, the notorious outlaw, was found guilty on a half dozen charges. He was sentenced to fifty years in the penitentiary at Albany, N. Y., and his stay at Albany was made to-day.

### A Young School Teacher Killed.

Patterson, N. J., Feb. 13.—Miss Lisle Laird, twenty-three years old, a school teacher of Lakewood, a suburb of this city, was killed late yesterday afternoon by an Erie train while returning from school. She was accompanied by Miss Hattie Amiraux and Miss Annie Atkinson, also school teachers. The young women were struggling up a snowbank near the east-bound track. Just as Miss Laird got to the top of the bank a freight train, bound east, came along. The pilot of the locomotive struck her on the head, hurling her against her companions.

### Perhaps Thirty Men Were Drowned.

Philadelphia, Feb. 13.—It is believed here that at least thirty men were drowned or frozen to death through the collision during last week's storm of the two unknown schooners off Five Fathom Bank Lightship. These sunken schooners were reported by the steamer *Algonquin*, which arrived at New York Monday from Jacksonville. The *Algonquin* passed near the wrecks and reports that she saw all sails set. This would indicate that the vessels had sunk very quickly after having collided.

### Danger of Moving Buildings on Ice.

Norwich, Conn., Feb. 13.—T. Le Count's summer cottage, which was being moved across Gardner's Lake on the ice, was left with its contents upon the ice during the night, and in the morning it was found on the bottom of the lake with the roof above the ice. It is thought the ice is thick enough to hold workmen while they raise the building for a new start.

### Wholesale Jail Delivery.

Huntington, W. Va., Feb. 13.—Seventeen prisoners escaped from the Caltetisbury (Ky.) jail last night by a tunnel that they had dug under the walls. Two of them are charged with murder. Three were recaptured later. The surrounding country has been warned to look out for the others.

### A Pacific Railroad Bill.

Washington, Feb. 13.—The House Committee on Pacific Railroads has agreed to report to the House the Railway bill for the settlement of the indebtedness of the Pacific railroads. This is the same bill considered by the House and recommended to the committee about ten days ago.

### Binghamton's Mayor.
